SOUTH CAROLINA ASPHALT PAVEMENT ASSOCIATION

SOUTH CAROLINA ASPHALT PAVEMENT ASSOCIATION

SCAPA PROVIDES A LEGAL FORUM FOR ITS MEMBERS TO WORK TOGETHER, TO COMMUNICATE WITH GOVERNMENT AND WITH THE PUBLIC. SCAPA PROMOTES THE INDUSTRY AND ITS PRODUCTS — FROM SUPPLIERS OF RAW MATERIALS TO OUR FINISHED PRODUCT — TO THE BENEFIT OF EVERYONE INVOLVED.

WHO IS SCAPA?

"Together we know more" best describes the basic reason for the existence of the South Carolina Asphalt Pavement Association.

SCAPA was chartered in 1966 as a statewide non-profit trade association. Membership is comprised of firms representing all phases of South Carolina's hot mix asphalt industry.

SCAPA might best be described as a "one roof" organization of hot mix asphalt producers, suppliers of crushed stone, gravel, sand, asphalt cement, emulsion and lime. Also, surety bond agencies, environmental and civil engineering firms and other firms supplying needed materials, equipment and services.

SCAPA is dedicated to helping the hot mix asphalt industry in South Carolina meet the challenges of today and tomorrow.

Add your voice to keeping South Carolina's hot mix asphalt industry healthy and growing. Your tomorrow could depend on your decision today to join and be a part of the South Carolina Asphalt Pavement Association.

Join us! You're invited. Don't you agree "together we know more"?

A FEW OF THE CURRENT AND PAST ACTIVITIES OF SCAPA

- Publishes an annual directory of contractor and associate members, certain government agencies and other important organizations.
- Conducts annual conference featuring nationally known industry speakers.
- Cooperates with the National Asphalt Pavement Association, National Center for Asphalt Technology and Asphalt Institute in research and educational activities to develop an even better product, new paving techniques and a higher quality of workmanship.
- Maintains liaison with government agencies affecting the hot mix asphalt industry.
- Participated in a successful effort to repeal federal law mandating crumb rubber in hot mix asphalt.
- Participated in the development of the USEPA approved General Conditional Major Operating Permit for hot mix asphalt plants.
- Worked to secure passage of state law increasing hours of service for certain intrastate truck drivers.
- Conducts seminars on hot mix asphalt production, construction, safety and environmental practices and regulations.
- Publishes regular bulletins for member firms.
- Provides information about hot mix asphalt pavements to architects, engineers, developers and others.
- Serves as a forum for collection and distribution of information about industry developments, trends, etc., helpful in long range planning.
- **ALWAYS READY TO ASSIST MEMBER FIRMS.**

SCAPA MEANS SOMETHING TO EVERY MEMBER. THEY KNOW THE TRUE VALUE OF THEIR ASSOCIATION: HERE'S WHAT FIVE MEMBERS SAID!

"My father helped organize the association in 1966. Now that I'm president of the company I understand the reasons for having an asphalt contractors association."

Third Generation Contractor

"I think my wife learns more than I do when we attend the summer conferences. Only a major catastrophe would cause us to miss one."

One Plant Contractor

"My greatest teachers are my competitors, that's why I never miss an association meeting."

Multi-Plant Contractor

"SCAPA is always there when I need help understanding a new government regulation."

Coastal Contractor

"As an associate member we easily recognize the real value of the association. We like the association and like to attend the meetings."

Aggregate Supplier

I LOVE ASPHALT

MEMBERSHIP

The bylaws provide for two classes of membership, Contractor and Associate:

CONTRACTOR: Firms operating one or more plants in South Carolina which manufacture asphalt paving mixes. The designated representative of each contractor member firm shall have one vote in Association affairs.

ASSOCIATE: Firms that manufacture, provide, produce and/or market:

- Asphalt cement and emulsions, crushed stone, gravel, sand and lime, contract bonds and testing equipment.
- The milling of asphalt pavements and transportation of asphalt cement and emulsions.
- Hot mix asphalt plants, pavers, rollers, milling machines, material transfer devices and major components for plants such as dryers, cold bins, HMA and lime silos, baghouses and scrubbers, asphalt cement storage tanks, hot oil heaters, dryer burners, scales and electronic controls.
- Engineering services for testing aggregates, asphalt cement and additives for use in HMA; engaged in the design of HMA, the determination of HMA structures, the evaluation of HMA performance; and engaged in the practice of advising and determining compliance with regulations applicable to HMA plants, sites and related operations.

YES, I WANT TO JOIN THE SOUTH CAROLINA ASPHALT PAVEMENT ASSOCIATION AND HAVE A ROLE IN THE COLLECTIVE EFFORT TO PROMOTE OUR INDUSTRY.
